**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Woods et al.'925 (cited by applicant).

Woods et al.'925 discloses a bit insert 32 that includes a pair of oppositely facing generally parallel side surfaces 42, a pair of oppositely inclined top surfaces 46 extending between said side surfaces and a U-shaped depression 50 extending upward from the bottom of said insert. With respect to claim 18, said U-shaped depression is smooth and does not include any sharp corners.

***Allowable Subject Matter***

3. Claims 17, 19, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
